# Genome Annotation Report

EMBL

The [26541] genome assembly [GCF_902655055.1] was annotated by {facility/organisation/contact}. This annotation includes {transcript_number} transcribed mRNAs from {gene_number} genes. The average transcript length is {average_transcript_length} bp, with an average of {average_coding_transcripts_per_gene} coding transcripts per gene and {average_exons_per_transcripts} exons per transcript. The annotation file is available at {url}.

Organism ID	26541
ToL prefix	mLutLut
Bioproject name	DToL
Bioproject ID	PRJEB40665
Assembly name	mLutLut1.2
Refseq accession	GCF_902655055.1
Release Date	2020-07-31

Type	Number	Size total (kb)	Size mean (kb)
c_gene_segment	12	10.20	849.83
cds	335182	53674.60	160.14
exon	356829	80142.18	224.60
five_prime_utr	30792	4817.77	156.46
